IFMA's Facility Management Professional (FMP) designation is a knowledge-based credential for FM professionals and industry suppliers looking to increase their depth-of-knowledge in the core FM topics deemed critical by employers. By earning the must-have FMP credential, you will improve your knowledge, enhance your skills, and gain immediate credibility with employers, clients and peers. The FMP designation will help to accelerate an FM's transition into the profession and demonstrate a proven comprehension of the foundations of facility management. It is ideal for:

- Facility management practitioners looking to increase their depth-of-knowledge in the foundation of FM topics deemed critical by employers.
- Individuals who are transitioning into the FM profession.
- Related-industry practitioners such as architects, designers and safety engineers.
- Facility-related product and service providers.
- Students entering the profession from colleges, universities, certificate or technical programs.
- Experienced FMs intending to pursue the CFM credential.

**All classes are sponsored by Corporate
Floors/Apex
Their support provides lunch and light snacks
each day as well as a hosted happy hour
following each Thursday class**
